PROFESSIONAL SUMMARY

Software Developer with 3+ years of experience designing and shipping full-stack web applications using Laravel, Vue.js, and Nuxt 3. Skilled in REST API design, multi-tenant SaaS platforms, microservices architecture, and database performance optimization. Delivered production systems across project management, healthcare (HIPAA-compliant), fintech/BI, and e-commerce domains, improving API response times by up to 30% and reducing frontend development time through reusable component libraries. Experienced in Agile/Scrum environments, code reviews, and enforcing coding standards.

TECHNICAL SKILLS

Languages: PHP, JavaScript (ES6+), TypeScript, HTML5, CSS3, jQuery

Frameworks: Laravel, Vue.js, Nuxt 3, React, Next.js, Inertia.js

Backend: REST APIs, MVC Architecture, Sanctum, Passport, Queues & Jobs, Artisan CLI, Eloquent ORM, Microservices

Frontend: SPA Development, Axios, Pinia, Vuex, Tailwind CSS

Database: MySQL, PostgreSQL

Tools & Platforms: Git, GitHub, Postman, Composer, NPM, Caching, Shopify API, Zoom API, Twilio, Pusher, WebXR, Three.js

AI Tools: Antigravity, Claude Code, Codex

WORK EXPERIENCE

Software Developer — Webskitters Technology Solutions Pvt. Ltd, Kolkata, India Aug 2024 – Present

- Led development of a Project Management System (PMS) with role-based access control (RBAC) and real-time collaboration features.
- Designed and implemented multi-module REST APIs in Laravel, enabling integration across multiple internal systems.
- Built a reusable Vue.js component library adopted across the product, reducing new-feature frontend development time.
- Contributed to a multi-tenant SaaS platform built on Laravel and Vue.js with a microservices architecture.
- Optimized database queries and implemented API response caching, improving average API response time by up to 30%.
- Authored internal Laravel coding standards and led code reviews for the development team.
- Owned key modules on Bullfincher, a visual-first BI and research platform, including News, Ownership, Earnings Transcript, Org Chart, and SEC Filings (10-K/10-Q) pages; built AI-powered earnings call transcript generation and summarization using Laravel, Vue.js, and Highcharts.
- Built MyWhiteCoats, a HIPAA-compliant healthcare platform, including e-prescription (ERX) generation via provider API, doctor/patient onboarding with NPI and state license verification, and Zoom API integration for in-app video calls with auto-generated transcripts; implemented SHA-256 encryption for HIPAA compliance.

Software Developer — WebReinvent Technologies Pvt. Ltd, New Delhi, India Jun 2023 – Aug 2024

- Built core backend features in Laravel, including a token-based authentication system (Sanctum) and REST API endpoints supporting the product's main workflows.
- Developed reusable Vue.js components consumed across multiple pages and modules, reducing duplicate frontend code.
- Improved application performance by 25% through SQL query optimization and query result caching.
- Collaborated with backend and QA teams in an Agile/Scrum environment to ship features on a consistent sprint cadence.
- Built Merchan.io, a multi-store Shopify Product Information Management (PIM) and bulk editor; integrated ag-grid to provide an Excel-like grid view for bulk editing products, variants, collections, and tags with auto-complete and drag-copy support.

PROJECTS

AR Restaurant Menu (Personal) — github.com/SumanMCAMR/AR_web_app_restaurant

- QR-based augmented reality menu for restaurants using browser-based WebXR — customers view 3D food models with no app installation required. Built with Laravel 12, Vue 3, Inertia.js, Tailwind CSS, WebXR, and Three.js.

Ride-Sharing App (Personal) — github.com/SumanMCAMR/Ride-Sharing-App-Vue3-Laravel

- Full-stack ride-hailing platform with real-time driver tracking, OTP verification via Twilio, and WebSocket-based live updates using Pusher. Built with Laravel, Vue 3, Pinia, and MySQL.

EDUCATION

Manav Rachna International Institute of Research and Studies2021 – 2023

MCA, Computer Applications — CGPA: 7.8

B.S.S College, Supaul2016 – 2019

BCA, Computer Applications — Score: 78%
